

KEEP YOUR BUDGET GROUNDED WITH SOFTWARE IN THE CLOUDS.

What are the advantages of the Software As A Service (SaaS) model?

Reduce Costs: Turn current capital costs into an operational monthly expense with fixed monthly fees.

Scalable: Any number of users. Any number of properties.

Secure Data Center: SAS70 audited with daily backups and secure offsite storage.

Shorter Deployment Time: Since the software is already up and running in our data center, you eliminate the implementation tasks associated with getting the infrastructure up and running and the software license installed.

Interface: Over 100 interfaces with other Hospitality industry systems.

The only complete enterprise back office suite now available online.
