

# CUSTOMER PROFILES

## **RESORT & CONFERENCE CENTER THE WOODLANDS, THE WOODLANDS, TX**

- General Ledger, Payables, Purchasing & Inventory
- Bar Code Scanning
- Springer-Miller Retail POS Inventory Interface
- MICRO Coded Laser Checks
- Woodforest National Bank Check Export

With 440 Guestrooms, Full Service Spa, Full Service 32 room Conference Center, Golf and Tennis Pro Shops a full service solution is imperative.

The Woodlands had a system that was old and no longer supported. Their goal was to be able to provide accurate and timely financial information to the resort operation at the same time that staffing levels were being reduced due to the spinoff of The Woodlands as an independent operation.

After going live with Data Plus, the first month's financials were on time with complete history loaded for current and prior year. All statements were formatted and proofed prior to month end. Final statements were produced on the 4th working day after the close (which is one day early).

*“Based on my experiences with Data Plus, I would strongly recommend them to any hospitality customer as the best solution for their operation. I know that future Data Plus customers will become as excited as I am about their products, services and customer satisfaction.”*

*John Smith, Controller*
